VAMP-TECH spa, located in Busnago (Milan – Italy) has signed an agreement with the Chinese producer KINGFA for the distribution of the biodegradable thermoplastic compounds ECOPOND on the Italian market.

**ECOPOND line includes biodegradable compounds with high mechanical properties as well as a very high degree of fluids impermeability , even at extremely low thickness.
ECOPOND can be employed in applications such as:**

- Shopping bags
- Waste bags (waterproof)
- Catering items
- Blow building
- Stationary items

**ECOPOND is completely biodegradable and compostable in accordance with the norm EN13432
ASTM D6400 Japanese GreenPla.
ECOPOND is certified by AIB-Vinçotte International with the marking OK compost.**
